

BIODIESEL TESTIMONIAL

JOHN BUTLER TRIO

Australian folk band, the John Butler Trio, believe in the power of love, compassion and personal evolution. Through their music, they hope to inspire people to think about how they can take their own steps to affect positive change both socially and environmentally.

Their 2006 US Tour, Grand National, will be eco-friendly with Biodiesel being used in the tour bus and crew trucks.

FUEL FOR OUR FUTURE
