

BIODIESEL TESTIMONIAL

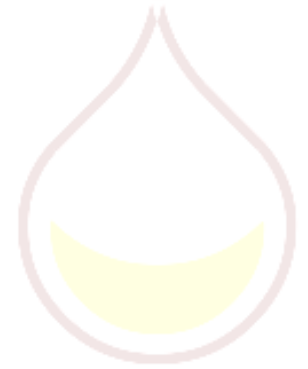

YOSEMITE NATIONAL PARK

The El Porto maintenance complex of Yosemite NP has exclusively been using B20 since 2002. At this base of operations over 87 pieces of diesel equipment and vehicles are serviced and fueled.

The equipment being powered by B20 Biodiesel includes: Generators; Heavy Trucks; Garbage Trucks; Graders and Excavation Vehicles; and Snow Removal Vehicles.

The next step will be to introduce B20 to the entire park operations.
